

PUBLICATION GUIDELINES

In the 2021 Reporting Framework, the PRI introduced accountability measures around the accurate representation of PRI Assessment Reports externally. This came as a result of an increasing level of disclosure of PRI Assessment Results externally. Alongside the higher level of disclosure, came an increasing amount of misrepresentation. As such, these guidelines were developed to ensure consistent and accurate representation of PRI reporting outputs.

Signatories should not:

- disclose select module scores in isolation (e.g., disclosing higher-scoring modules without disclosing lower-scoring modules) or portray any single module score as representative of an overall score,
- disclose scores that are from selected parts of modules only (e.g., disclosing above-average performance in parts of a module without disclosing the median score for the module), and
- present any scores/grades/classification generated internally or by a third party, for a module of the overall Assessment Report, as being from the PRI (e.g., recalculating, or recompiling PRI scores).

Publication of any part of an Assessment Report must be accompanied by access to both the signatory's full:

- Assessment Report
- Transparency Report

Assessment Reports are the intellectual property of PRI. Under no circumstances, can this report or any of its contents be sold to third parties. Consent from the reporting signatory must be provided when sharing with third parties. Signatories should consider and be aware of any local regulations around sharing or promoting ratings from third-party providers.
