Understanding this document

In addition to the detailed indicator text and selection options, in each module of the PRI Reporting Framework, you can find information that will help you identify which indicators are relevant for your organisation.

Key information about each indicator is highlighted in the top bar, including the indicator status (mandatory or voluntary), the purpose of the indicator and which PRI Principle it relates to.

xxx 01	Indicator status MANDATORY	Purpose CORE ASSESSED	Principle PRI 2
-----------	--------------------------------------	---------------------------------	---------------------------

Indicator Status

MANDATORY
MANDATORY TO REPORT VOLUNTARY TO DISCLOSE
VOLUNTARY

Mandatory indicators reflect core practices. These responses will be made public and must be completed to submit the framework.

Some indicators are mandatory to complete, but voluntary to disclose. These indicators may determine which subsequent indicators are applicable or are used for peering, but they may also contain commercially sensitive information.

Voluntary indicators reflect alternative or advanced practices. These indicators are voluntary to report and disclose.

Purpose

Gateway		The responses to this indicator 'unlock' other indicators within a module if they are relevant for your organisation. Please refer to the logic box for more information.
Peering		These indicators are used to determine your peer groups for assessment purposes.
Core assessed		These indicators form the core of the assessment and represent the majority of your final assessment score.
Additional assessed		These indicators represent more advanced or alternative practices and contribute to a smaller part of your score.
Descriptive		These are open-ended narrative indicators, allowing you to describe your activities.

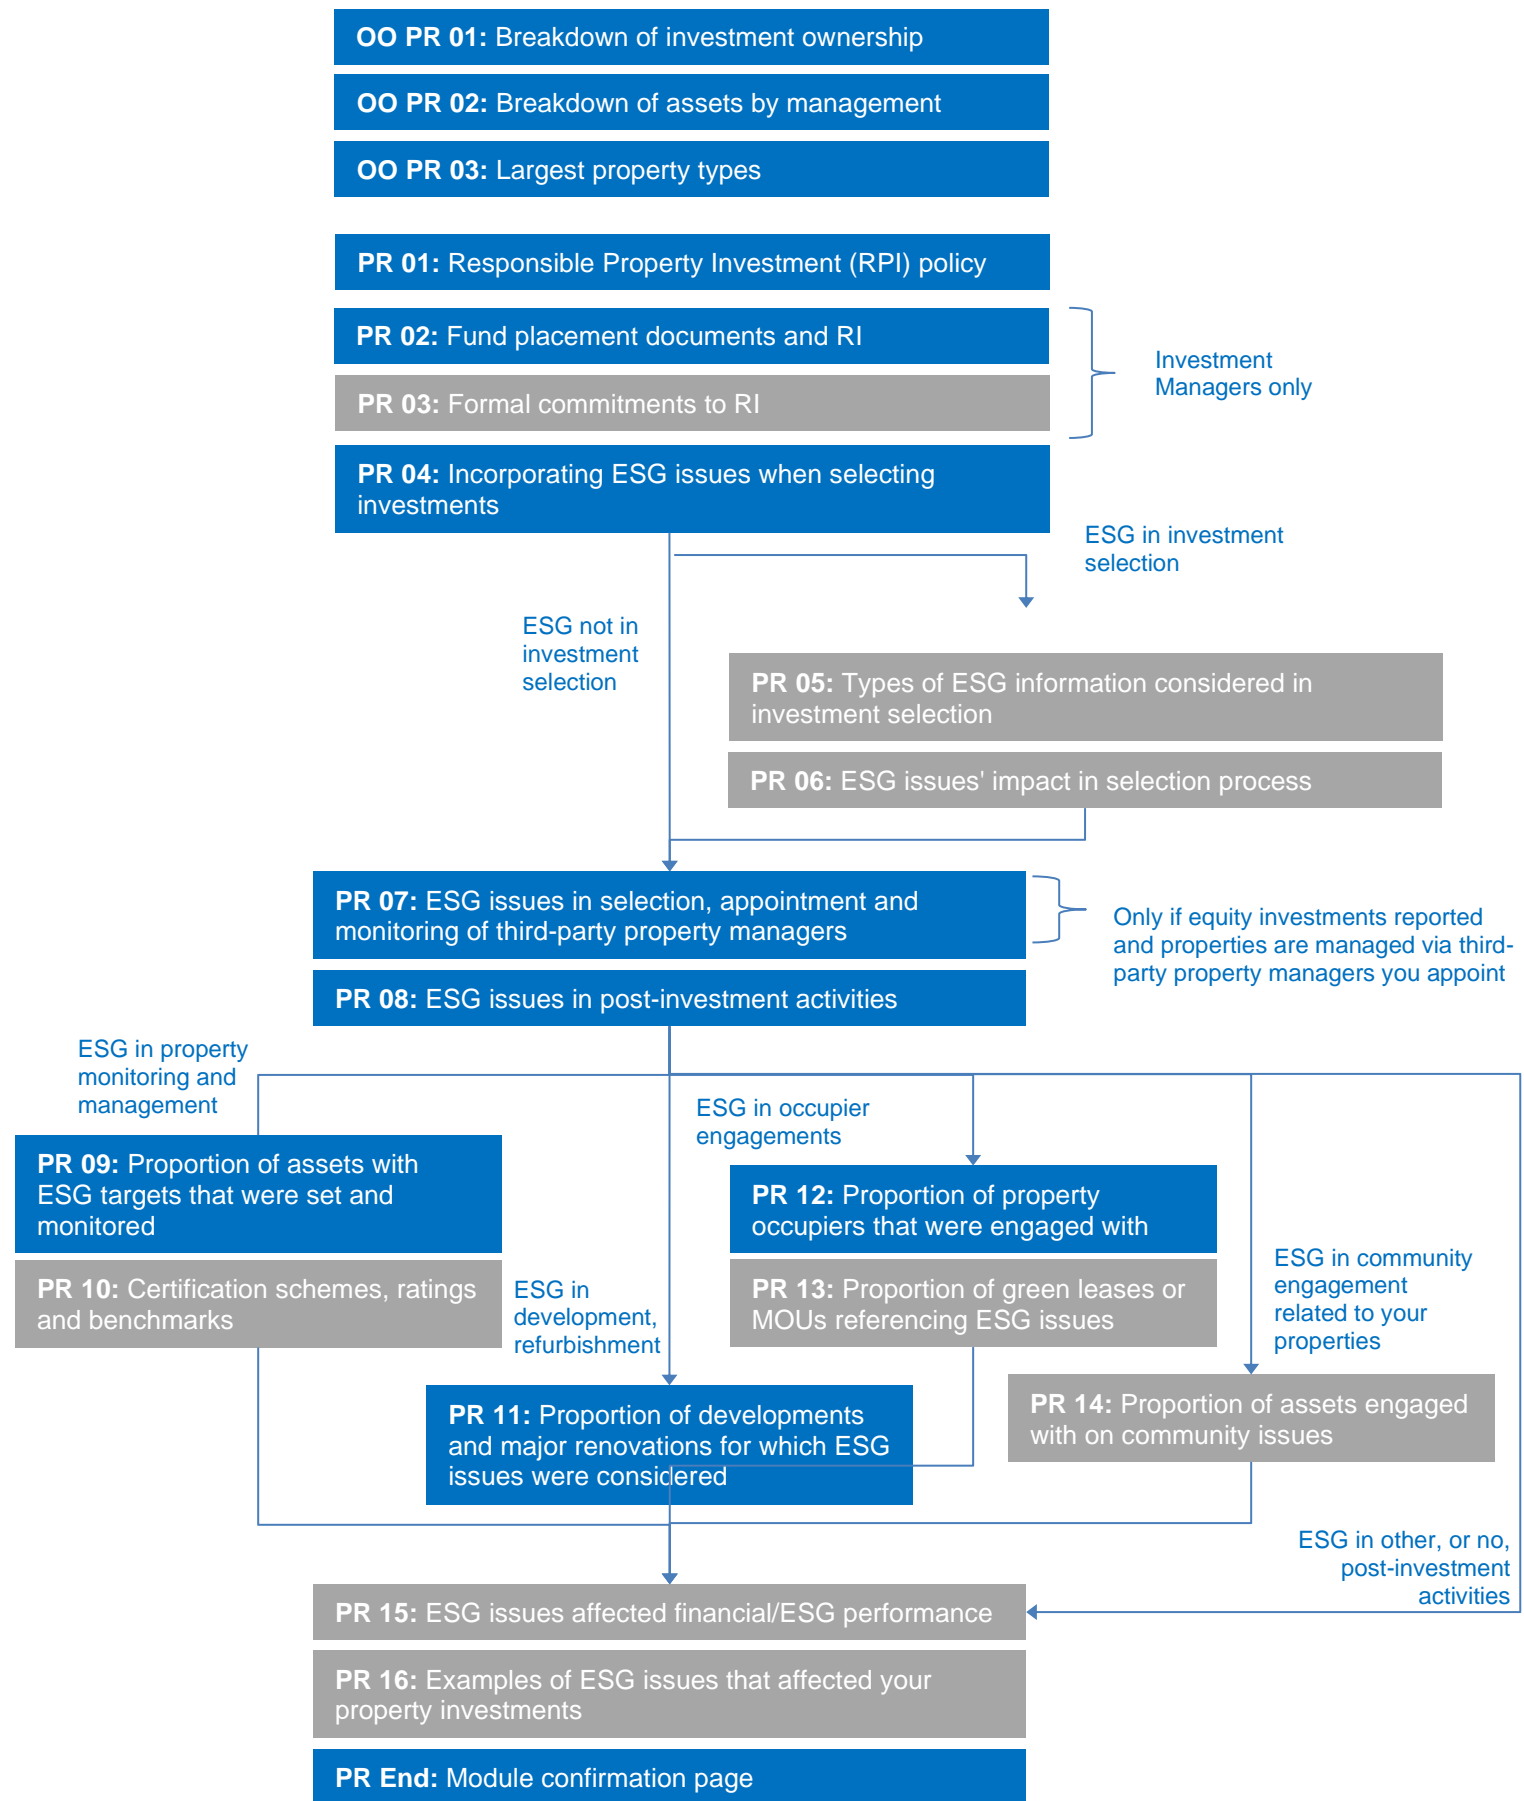

Underneath the Indicator

Underneath the indicator, you can find explanatory notes and definitions that include important information on interpreting and completing the indicators. Read the logic box to make sure an indicator is applicable to you.

xxx 01	EXPLANATORY NOTES
xxx 01.1	This provides guidance on how to interpret the sub-indicators, including examples of what could be reported.
xxx 01.2	
LOGIC	
xxx 01	This explains when this indicator is applicable and/or if it has an impact on subsequent indicators. If there is no logic box, the indicator is always applicable and does not affect other indicators.
ASSESSMENT	
xxx 01	This provides a brief overview of the pilot assessment approach for this indicator.

Preface

This module seeks information from investors that invest directly, either individually or with other investors, in property via non-listed equity. The investments can be both direct in physical property assets and in non-listed property management companies in which you are significantly involved in investment decisions and monitoring of underlying property assets.

The module seeks information about your organisation's ownership of property assets by type and value and how these assets are managed. It enables direct property investors to report how they apply their responsible property investment (RPI) policy, strategy and processes to investment selection, monitoring and management. 'Property management' refers to the operation and day-to-day management of property assets.

If you invest in non-listed property funds or fund-of-funds via external managers, you should not report in this module but instead use the *Indirect—Manager Selection, Appointment and Monitoring (SAM)* module. If you invest in the listed equity of property management companies, you should report in the *Direct—Listed Equity Incorporation (LEI)* and *Direct—Listed Equity Active Ownership (LEA)* modules in the same way as you report all your other listed equity investments.

Investments into real estate investment trusts (REITS) should be reported in this module.

This module refers to ESG issues in property investment selection and monitoring processes and activities to ensure alignment with terminology generally used by the PRI. The term "sustainability" is often used by property initiatives, surveys and codes. Sustainability in property investment may, depending on the context and area of focus, partially or fully overlap with ESG issues.

Some indicators in this module also overlap, partially or fully, with the Global Real Estate Sustainability Benchmark (GRESB); see [link](#) to assessment. Please note that this module seeks information at the organisational level and for your property investments in aggregate, not at a fund level.

Some indicators in this module also overlap, partially or fully, with the INREV Sustainability Reporting Guidelines see [link](#) here. Please note that this module seeks information at the organisational level and for your property investments in aggregate, not at a fund level. The module has two main sections:

- pre-investment processes, i.e., initial screening, due diligence and investment decision-making processes that your organisation has in place for new property investments
- post-investment processes, i.e., consideration of ESG issues in property investment monitoring and implementation processes. The potential activities you may undertake in relation to property assets have been divided into four areas: property management, developments and major renovations, occupier engagements and community engagements

PR 02	EXPLANATORY NOTES
PR 02	<p>This indicator covers the fundraising process of property funds in which relationship between the direct investor and the indirect investor client is established. A PPM or similar document issued by the direct investor about a particular fund can provide the recipient with a general sense of your approach to responsible investment and management of ESG issues.</p> <p>This indicator is applicable only for general partners and/or for direct fund managers. This is not applicable for asset owners.</p> <p>If this indicator is applicable to you but your organisation does not fund-raise, please select "Not applicable as our organisation does not fund-raise" and use indicator [INF 03.4] to explain why.</p> <p>If your organisation does fundraise but was not actively fundraising during the reporting year, please select the option that best represents your typical approach. As a general rule, this is the approach your organisation is likely to take during your next round of fundraising or what it included in your most recent round of fundraising.</p>

PR 02.3	<p>You may include a discussion of your typical PPM's coverage:</p> <ul style="list-style-type: none"> • Policy (e.g. reference to responsible investment and consideration of ESG issues throughout all investment stages) • Pre-investment (e.g. processes such as due diligence and the consideration of ESG issues in these) • Post-investment (e.g. ESG implementation programmes for portfolio companies, tracking achievements and identifying opportunities through monitoring processes, such as audits that consider ESG issues, until exit) <p>Please report on any public placement documents and PPMs issued recently, not necessarily during the reporting year.</p>

Fund placement documents or Private Placement Memorandum (PPM)	<p>A fund placement document or Private Placement Memorandum (PPM) provides a broad range of information to help potential investors learn about the firm and its investment strategy as well as the proposed summary terms and conditions of the investment opportunity. These types of documents are also known as an "Offering Memorandum". A private equity firm will issue fund placement documents or PPM to prospective limited partners/investors when it is attempting to raise capital through a fund offering.</p>

PR 03	EXPLANATORY NOTES
PR 03	This indicator is applicable only for direct property fund managers. This is not applicable for asset owners.
PR 03.1	<p>Fund formation contracts, Limited Partnership Agreements (LPAs)</p> <p>Formal commitments on responsible investment implementation and consideration of ESG issues can be requested by investors and included in fund formation contracts, LPAs and side letters. They can also be made in your investment strategy, guidelines and/or mandate, either in a dedicated paragraph or integrated across the document. This latter approach can eliminate the need for separate fund formation contracts, LPAs or side letters.</p> <p>Please report on any fund formation contracts, LPAs and side letters signed upon request from investors/AOs recently, not necessarily during the reporting year.</p> <p>Please note that a formal commitment can have different levels of significance when it comes to implementation. Even though a responsible investment policy is mentioned, it does not mean ESG issues will be implemented in operational processes.</p>
PR 03.2	<p>You may include a discussion of:</p> <ul style="list-style-type: none"> • Description of your organisation's responsible investment commitments • Adoption and alignment of policies between direct and indirect investors in relationship to responsible investment and ESG issues • Exclusion of investments in certain areas, either based on a direct property investor's own suggestion or in accordance with the indirect investor's preferences • Processes in place to deliver approach towards responsible investment and consideration of ESG issues, both during pre- and post-investment (including exits) • Listing of specific E, S and G issues (e.g. climate change and remuneration, and how they will be dealt with (if required)) • Portfolio companies' undertaking in relationship to ESG issues

	<ul style="list-style-type: none"> • How reporting on ESG issues will be carried out during the life of the fund(s) • How and when potential incidents among portfolio companies will be communicated to investors <p>If your formal commitments to responsible investment in property exist through other mechanisms that have been described in the Strategy and Governance (SG) module, please refer to that reported information in this indicator.</p> <p>This indicator is complementary to GRESB indicator PD 7.1 in the Policy & Disclosure section of the 2019 GRESB assessment.</p>

PR 08.3	<p>Describe how your organisation and/or property managers consider ESG issues in post-investment activities related to your property assets.</p>

PR 08	EXPLANATORY NOTES
PR 08	This indicator refers to the consideration of ESG issues in active property monitoring and management processes and activities.
PR 08.2	If you have a policy and procedures to address ESG issues in the development and refurbishment of your assets but did not apply it in the reporting year since no developments and major renovations of property assets were ongoing, you should still select 'We consider ESG issues in property development and major renovations'.

<p>PR 08.3</p>	<p>You may outline how you consider ESG issues, such as climate change and energy efficiency, in the different areas and associated activities. For example, you can describe whether your organisation, your property managers and/or your joint venture partners have the main responsibility for the different areas of property investment monitoring and implementation. If you are a minority investor, your description can cover how you influence partners and/or their property managers to consider ESG issues in their monitoring and management processes and activities.</p> <p>You may want to include ESG considerations such as:</p> <ul style="list-style-type: none"> • Environmental site selection requirements • Environmental site development requirements • Sustainable construction materials • Water efficiency requirements • Energy efficiency requirements • Energy generation from on-site renewable sources • Waste management plans at sites • Health and safety management systems at sites • Construction contractors comply with sustainability guidelines • Resilient building design and orientation <p>You may also outline whether you have specific guidelines by which operating programmes, plans and short- or long-term goals for these activities are captured and described. More details per area of implementation can be reported in respective sub-section [PR 09-20].</p>
<p>LOGIC</p>	
<p>PR 08</p>	<p>[PR 08.2] and [PR 08.3] will be applicable if you report "Yes" in [PR 08.1]. [PR 09 - PR 14] will not be applicable if you report "No" in [PR 08.1].</p>
<p>PR 08.2</p>	<p>[PR 09] and [PR 10] will be applicable if "We consider ESG issues in property monitoring and management" is selected.</p> <p>[PR 11] will be applicable if "We consider ESG issues in property developments and major renovations" is selected.</p> <p>[PR 12] and [PR 13] will be applicable if "We consider ESG issues in property occupier engagements" is selected.</p> <p>[PR 14] will be applicable if "We consider ESG issues in community engagements related to our properties".</p>
<p>Assessment</p>	
<p>PR 08</p>	<p>This indicator is not assessed but a 'No' response in [PR 08.1] will result in a zero score for the whole of the post-investment section.</p> <p>In [PR 08.2], if you report that you do not consider ESG in the 'property monitoring and management', 'property developments and major renovations', 'property occupier engagements' and/or 'community engagements related to our properties' you will receive a zero score for that sub-section.</p>

PR 09	EXPLANATORY NOTES
PR 09	<p>This indicator aims to capture your and/or your property managers' approach to ESG performance in the active monitoring of your property assets. The type of monitoring activities undertaken can range from individual engagements on boards and/or with senior management to reviews of ESG information covering property assets/companies.</p> <p>The options in this indicator are complementary to GRESB indicator P15 in the 'Performance Indicators' section of the 2019 GRESB Real Estate Assessment.</p> <p>This indicator is complementary to INREV Sustainability Reporting Guidelines: ESG- ANN 1.1</p>
PR 09.1	<p>Select the proportion of your properties for which you and/or your property managers have set targets that cover at least one E, S or G issue and monitor performance towards achieving this target. For example, if your organisation has set energy efficiency targets for 40% of properties (by number) which for those same properties has set disability access targets in 20% of cases, you should still select the '10-50%' option. If instead your organisation has set energy targets for 40% of properties and for a different set of properties has set disability access targets in 20% of cases, you should select the '51-90%' option. Not encouraging, reviewing reports or participating in discussions around ESG issues should not be reported as monitoring.</p> <p>Please note that this indicator does not ask for a specific level of targets. The level of E, S and G targets that an organisation is able to set will vary depending on a number of factors such as their value add, risk reduction potential and financial performance targets.</p> <p>Determine the proportion based on the number of property assets.</p>
PR 09.2	<p>These may include:</p> <ul style="list-style-type: none"> • Qualitative targets to have investment and asset management procedures in place, as well as tools to integrate ESG in climate risks in asset acquisition, management, operation, planning, new developments, refurbishment, upgrade, rental and occupier management; • Quantitative and material targets to reduce energy, carbon intensity, water and waste of the portfolio over specified timeframes; • Setting a goal to measure and reduce the environmental/ resource intensity of a portfolio against relevant benchmarks over a given time period; • Quantitative and qualitative targets to address social impacts of the portfolio, including community engagement and contribution to local communities; • Setting quantitative targets for the inclusion of green lease clauses in the lease agreements with tenants; • Target for a specified proportion of the fund's buildings to be powered by clean energy, to be highly energy efficient, to achieve minimum requirements for renovations, or to be "best in class" with respect to resource intensity; and / or • Periodic reports on progress against targets. <p>For further guidance, refer to UNEP FI's Sustainable Real Estate Investment: Implementing the Paris Climate Agreement, An Action Framework, p. 36.</p>

PR 09.3	<p>Your description can cover how your organisation and/or your property managers approach ESG issues in property management. PR 13		DEFINITIONS
Green lease	Green lease refers to a commercial lease that align the interests of the tenant and the landlord for an investments energy efficiency. A green lease is a lease for a property that, within its terms or through an attached schedule, includes provisions that encourage the landlord, occupier or both to carry out their roles in a sustainable way. The details of the provisions and the means of encouraging sustainable behaviour are negotiated between the parties, but typically relate to the achievement of specific ESG targets (e.g., for energy, water use and waste management). Clauses in green leases may also include the use of sustainable materials when possible and sharing of environmental data between landlord and occupier.	
Memorandum of Understanding (MoU)	An MoU provides a formal mechanism for landlords and occupiers to discuss issues that will be included in the lease agreement and is not necessarily legally binding. In this context, it may represent a starting point for both parties to incorporate ESG considerations in relationship to, for example, water or energy performance.
