Explanatory notes

<p>Purpose of indicator</p>	<p>The Senior Leadership Statement will frame signatories’ reporting by providing an overview of their approach and responsible investment achievements. It serves three main purposes:</p> <ul style="list-style-type: none"> (1) Raising internal awareness of, and internal accountability for, PRI reporting and responsible investment in general. (2) Encouraging internal use of PRI reporting for decision making and for tracking responsible investment progress. (3) Facilitating the use of PRI reporting by external stakeholders to learn about signatories’ general responsible investment beliefs. <p>The Senior Leadership Statement will provide an introduction, appearing at the beginning of signatories’ reporting and assessment outputs.</p> <p>The PRI will not score this statement; however, it is mandatory to complete it.</p>
<p>Additional reporting guidance</p>	<p>The Senior Leadership Statement should be signed by the signatories’ senior executive-level staff or equivalent, including, for example, the signatory organisation’s Chief Executive Officer (CEO), Chief Investment Officer (CIO) or Chief Operating Officer (COO), or its partners in the case of private equity funds.</p> <p>Signatories should aim to address the topics outlined in sections 1, 2 and 3 of the indicator. However, signatories may choose to address only some of the topics outlined in each section or to discuss them in a different order (within the relevant section). Signatories may also add any information they find relevant to each section.</p>

Section 1. Our commitment

When answering the question ‘Why does your organisation engage in responsible investment?’, signatories may discuss their responsible investment practices and how they add value to their activities.

Section 2. Annual overview

In this section, signatories should discuss the progress that has come to fruition during the reporting year; they are not restricted to the reporting year’s work alone. PRI is aware that one year is generally too short a time period to make progress on strategic goals.

In this indicator, the ‘most relevant or material’ responsible investment issue refers to the responsible investment issue(s) that signatories believe, or expect, to have the most significant impact (positive or negative) on their organisation and its assets.

Section 4. Endorsement

In option (A), ‘the above-mentioned organisation’ refers to the signatory organisation indicated in the field ‘Organisation name’.

The endorsement should be completed by providing the name of the signatory’s senior executive-level staff member who drafted or approved the content of the Senior Leadership Statement.

This endorsement refers *only* to the content of the Senior Leadership Statement. It does *not* refer to any of the information reported in other modules of the Reporting Framework. This limitation is highlighted in the wording provided by PRI in option (A) above. Signatories who prefer to provide their own wording can do so by selecting option (B) above. Signatories who select option (B) may copy the wording provided by PRI in option (A) and adapt it to their needs. Alternatively, they may provide entirely new text.

Section 5. Additional Organisation Statements

In this section, you can provide information about any relevant legal or regulatory restrictions that apply to your responsible investment activities and how you comply with them.

Any information needs to be strictly limited to explaining: (a) any relevant legal or regulatory restrictions that apply to your responsible investment activities; and (b) how you comply with them; and nothing else. For example, it is important that you don’t:

- provide a general legal disclaimer here; or
- seek to undermine your obligation to use your best endeavours to ensure the accuracy of all information you submit to the Reporting Tool, as set out in the Reporting Tool Terms and Conditions

Any information that you provide will be published with your public transparency report.

If, in the PRI’s reasonable opinion, the information you provide goes beyond setting out the relevant legal or regulatory restrictions that apply to your responsible investment activities and how you comply with them, then the PRI may contact you to discuss amending the information. In the event that you and the PRI cannot agree on suitable wording, PRI reserves the right to not publish the information with your public transparency report or to remove the information from the Data Portal if it has already been published.
