Signatory Users

This user guide is relevant for PRI signatory users.
Accessing the Data Portal

PRI signatories can log in to the Data Portal to view their own reports and the public reports of other signatories. Please see our Permissions System guide for information on how to log in and/or register for the Data Portal.

Users whose accounts have already been granted access via the Permissions System can log in to the Data Portal through the PRI website.

An organisation’s Admin users can grant additional staff access to the Data Portal. See the Permissions System user guide for more information.

When registering, new users will need to accept the Terms & Conditions to access reports via the Data Portal.
If you have submitted on behalf of more than one organisation, you can move between them via the dropdown menu.
Signatories that did not report this year

Signatories that did not report will not have their own Transparency or Assessment Reports to view until they have completed a reporting cycle and submitted a response.

However, they can still log in to the Data Portal and view their historic private reports. Please see Viewing your Transparency Report for more details.

Signatories wanting to also view other signatories’ public reports for this year, or those from previous years, can do so without logging in – see Accessing the Data Portal in the Public User guide for more information.

Historic public reports from 2014 to 2020 are available on the PRI website, under Public Signatory Reports.
# Features of the Data Portal

</tbody>
</table>
When you click on the Transparency Report tab in the upper right-hand corner, you will have the option to view your organisation’s Transparency Report and to browse those of other signatories.

Under “My Transparency Report” you will see your latest public and private Transparency Reports.

1. All the responses for that a module can be seen by selecting that module from this dropdown menu.

2. You can also select to view a specific Section and a specific Indicator.

3. Download a copy of the full report in PDF or CSV format.
The public Transparency Report includes all CORE indicators (mandatory to disclose), as well as any PLUS indicators that you have chosen to disclose. The public and private report includes all responses.

Select the current year from the Year dropdown menu to see your latest report.

Signatories can choose to generate reports that only show their responses to climate-related indicators or the Senior Leadership Statement module.

Service providers did not report in 2023 but can view their other reports.
Click on "Browse Transparency Report" to see other signatories' latest public reports.

Click Select a signatory and a dialogue box will appear.

Choose between investors or service providers and type the name of the signatory in the search bar.

Select the signatory from the dropdown list to see their public Transparency Report.
When you click on the Assessment Report tab in the upper right-hand corner, you will see your latest Assessment Report. Assessment Reports are generated only for investors (asset owner and investment manager signatories) and are always confidential.

1. Click the Assessment Report tab to see your module scorecard.

2. Select the module to view from the Table of contents.

3. Select the Year from the dropdown list.

4. You can export your summary scorecard.*

*Your Assessment Report with indicator scores will be available in January 2024.
This page provides an introduction to your report, including an overview of your organisation's key characteristics and the PRI's publication guidelines and disclaimer.

### Main Characteristics

<table>
<thead>
<tr>
<th>Name</th>
<th>123 Investment Managers (123 IM)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Region</td>
<td>Europe</td>
</tr>
<tr>
<td>Country</td>
<td>France</td>
</tr>
<tr>
<td>Signatory Category</td>
<td>Investment Manager</td>
</tr>
<tr>
<td>Signatory Type</td>
<td>Fund management</td>
</tr>
<tr>
<td>Size</td>
<td>1 - 9.99</td>
</tr>
<tr>
<td>Signed PRI Initiative</td>
<td>2016</td>
</tr>
</tbody>
</table>

An organisation’s main characteristics are determine their peer group (the organisations that their scores will be compared to).

### Publication Guidelines

As responsible investment practices have moved into the mainstream, PRI signatories are increasingly choosing to share their scores and Assessment Reports externally. The PRI encourages such transparency and has developed a set of guidelines to support signatories wanting to disclose their assessment results, to ensure they are represented accurately and consistently:

- Signatories should avoid portraying any single score as representative of an overall or average score.
- Signatories should avoid disclosing individual module scores in isolation and instead present them with the full Summary Scorecard, which contains all module scores, to ensure full transparency.
- Signatories should avoid disclosing individual indicator scores in isolation and instead present them with the full Module Scorecard, which contains all individual indicator scores per module.

Signatories that wish to share their private Assessment Reports, or the scores therein, with clients or external stakeholders should ensure they do so in line with the guidelines outlined below.
My Assessment Report – Summary scorecard

The Summary Scorecard provides an overview of your scores for each assessed module and/or asset class/sub-strategy. The PRI does not provide an overall organisation score. See our assessment methodology for more information.

1. Your module star score for each assessed module is shown here.
2. The percentage AUM covered by the specific asset class and/or sub-strategy is shown here.
3. Hover over the blue line to view the PRI median score*.
4. Your individual module score is shown here.

*The PRI median is the median average score that all PRI signatories that responded to the module and/or sub-strategy received.
For each assessed module and/or asset class/sub-strategy, the Customise Peer Group function enables a signatory to compare their scores to other signatories based on: signatory type, geography, and/or size by AUM band. The chart maps peer scores based on customisation. More detail can be found in the high-level assessment methodology.

1. Make selections to view customised peer groups by signatory type, geographic region, and/or size by AUM band.

2. The scoring bands (based on stars) are visible across the top of the diagram.

3. Hover over the chart to see your score, peer median score*, minimum/maximum scores, and quartile scores.

4. Click on the camera icon to export a picture of the chart.

The default filter settings show your organisation’s peer group, based on your responses in the Organisational Overview module.

Removing all filters will display the PRI median score.

*The peer median score is the median average score of the signatories that are in the selected peer categories: (1) Signatory type, (2) Geography, (3) Size by AUM band.
The module scorecard lists the points received for each assessed indicator within the specific module and/or asset class/sub-strategy. More details can be found in the [high-level assessment methodology](#).

Clicking on an indicator will display more information, including your response, how the indicator was scored, and identified guidance/best practice.

You can export the full indicator scorecard in PDF.
Click on the Other Reports tab to view your previous reports from 2014 to 2020. Reports from 2021 onwards are available in the Transparency Report tab.
The Other Reports tab in the upper right-hand corner also shows the full dataset of public responses, from 2014 to the current reporting year.

Click on this tab to download the full dataset of public responses* in Excel.

*This includes data from all signatories that reported to the PRI in that year’s reporting cycle.
Accessing the User Guide

Return to this user guide at any point by clicking on the User Guide tab.

Signatory users can also access the Public User Guide.
Thank you

If you have any questions, please contact reporting@unpri.org.
